Chapter 1. Sum Up

Chapter 2. Subtract

What is Subtraction of Numbers?

Here you will learn, what is subtraction?

To successfully perform the task of subtracting numbers, you must know what is subtraction. The term 'subtraction' represents a mathematical operation which allows you to find the difference between two numbers.

You can use the minus (-) button to express the subtraction operation in the app.

In the subtraction process, you take a number and reduce it to a smaller number. That's it, we take away one number from another.

How to Subtract Numbers?

Here you will find instructions about using the subtraction feature of JPS Calculator App.

To successfully subtract numbers, you must know what is subtraction.

1. Enter the First Number
2. Choose the (-) button.
3. Enter the second number.
4. Choose the (=) button.

The result from the subtraction will be displayed.

When you want to subtract 2 from 3, the equation will look like $3-2=1$. First enter 3, then minus (-), later press 2, now press equal (=).

The result 1 will appear on the screen.
